

Ainhoa Díez Ruiz

Data Journalist

(34) 695 177 612
diezruiz00@gmail.com

I am a journalist with a special interest in social and data journalism. I have completed the URJC's Master's Degree in Investigative Journalism and Data, where I broadened my knowledge in this and other areas. I graduated from the University of Valladolid, where I received the Extraordinary End of Degree Award and came into contact with the discipline of data through my TFG '[Barrios vulnerables: ni integrados ni excluidos](#)' (Vulnerable neighbourhoods: neither integrated nor excluded). I consider that my time in different media has allowed me to be fluent in almost all formats and has allowed me to emphasise a proactive attitude and the ability to work as part of a team.

Experience

Maldita.es, editor at Maldito Clima

Febrero 2023-Present, Madrid

As an editor in the climate section I have been involved in checking various contents and I have participated in several European projects: [Clima Informa](#) a series of 7 reports on disinformation related to the), SoJo Europe (an investigation on [preventing floods](#) in the field of solutions journalism) and currently, in [Maldita Agricultura](#) (a project on agriculture, food and the rural world).

EIDiario.es, intern in the data section

Julio 2023-Diciembre 2023, Madrid

As a writer in the data area, my tasks focused on data analysis and visualization using mainly R, Google Sheets and Datawrapper. In addition to my own topics, I have collaborated with the rest of the sections of the newspaper and in the electoral coverage of the 23J.

EIDiario.es Cantabria, trainee editor and collaborator

Junio 2022-Abril 2023, Santander

During the internship, my tasks were focused on writing journalistic articles (news, reports and interviews) and managing social media, mainly Twitter and Facebook. From September 2022 I continued collaborating as the person in charge of the interview section '[Women in Sports](#)'.

Training

Master's Degree in Investigative Journalism, New Narratives, Data, Fact-checking and Transparency, Universidad Rey Juan Carlos
